Applicant's arguments filed 2/23/04 have been fully considered but they are not persuasive. See arguments below.

I. Rejection of claims 1-3,7-10,12-15 under 35 USC 103(a) over Watson in view of Bosserelle and JP '520 will be maintained for reason on record and reason as follow. Applicant argues that instant references do not make instant invention obvious since one would have to pick and choose elements from each reference to arrive at instant invention. Examiner disagrees with Applicant, Examiner argues that all references individually teach the composition as a shampoo. Since all prior art references teach the same utility (shampoo), it would have been obvious to combine them.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
